EDUCATION

University of Waterloo

Bachelor of Mathematics — Computer Science & Finance (CFM)

Waterloo, Ontario

Sep. 2026 – Aug. 2031

EXPERIENCE

Hackathon Chair

vsHacks

- Directed a student-run virtual hackathon across two editions, scaling to 400+ participants, 8+ sponsors, and \$10,000+ CAD in prizes — managing full event budget and sponsor deliverables
- Cold-emailed and networked to recruit 6+ senior practitioners from J.P. Morgan, Apple, and Microsoft as judges and keynote speakers, demonstrating stakeholder outreach and relationship management
- Negotiated cash and in-kind contributions across 8+ corporate sponsors over two funding cycles; coordinated prize allocation and post-event sponsor reporting
- Designed judging rubrics and managed evaluation logistics for 6+ industry judges across hundreds of project submissions

2025 – Present

Virtual / Vancouver, BC

Co-Founder & President

Conceptus Foundation

- Founded and led a registered STEM-education nonprofit; managed 20+ volunteers and oversaw budgeting, fundraising, and donor communications
- Fundraised \$1,700+ CAD through targeted campaigns, directing proceeds to STEM programming in underserved communities; maintained financial records for all expenditures
- Grew Instagram to 1,000+ followers and 90,000+ impressions; scripted educational content series on quantitative and technical topics for a global youth audience
- Tutored Grades 4–7 students in Python fundamentals; coordinated curriculum planning and volunteer scheduling across a distributed team

Sep. 2024 – Present

Vancouver, BC

President & Lead Developer

Soundr

- Co-founded a consumer health startup; served as president responsible for business strategy, financial record-keeping, and go-to-market execution
- Generated \$220 CAD in revenue within two weeks of launch; maintained the company balance sheet, tracked all expenses, and produced financial summaries for internal review
- Coordinated cross-functional execution between business strategy and technical development, ensuring product milestones were met on a startup timeline

2025

Vancouver, BC

PROJECTS

Stock Pitch Portfolio — AMAT, MU, FORM & Others | Excel (DCF / Comps), PowerPoint

- Authored 4–6 institutional-style equity research reports; each structured with company overview, competitive positioning, investment thesis, financial analysis, catalysts, and risks
- For AMAT: built a DCF model supporting a \$590 price target (4% upside); thesis anchored on the AI WFE supercycle, gross margins at a 25-year high (50%), and EPIC Center lock-in across TSMC, Samsung, Micron, and Broadcom
- Produced all financial exhibits and pitch decks in Excel and PowerPoint, replicating sell-side research presentation standards

2025 – 2026

Soundr Web App | TypeScript, React, Tailwind CSS, Vercel

- Built and deployed the production web app for Soundr; as president, simultaneously managed P&L; tracked \$220 CAD in early revenue, and maintained the company balance sheet

2025

SpotifyDJam | Java, Node.js, Spotify Web API

- Minecraft mod with Spotify OAuth 2.0 integration and a Node.js backend; 50+ active users — demonstrates end-to-end technical ownership from architecture through deployment

May 2026 – Present
